University of Pavia

Education

PhD in Economics **2024**
University of Bologna, Italy
Advisors: M. Gonzalez-Eiras, M. M. Croce

Visiting Student at *London Business School,* UK 2022-23
Sponsor: H. Kung
Courses: Asset Pricing (audit), Empirical Finance (audit)

Health-related leave (May 2021 – Mar 2022)

Visiting Student at *Bocconi University,* IT (Virtual) 2020-21
Sponsor: M.M. Croce
Courses: Advanced Topics in Asset Pricing (A+), Econometric Methods for Finance and Macroeconomics (A-)

Visiting Student at *Vienna Graduate School of Finance,* AT (Virtual) 2020
Sponsor: C. Wagner
Courses: Asset Pricing (audit)

MSc in Advanced Economics and Finance **2018**
Copenhagen Business School, Denmark

Credit Student at *University of Copenhagen (DIKU),* DK 2017
Courses: Machine Learning, Natural Resources Economics

BSc in Business Administration **2016**
University of Bologna, Italy

HSD in Mechanical Engineering **2013**
I.I.S. Aldini Valeriani, Italy

Academic positions

Research Fellow **2024-2025**
University of Bologna, Italy

Job Market Paper

The Long-Run Risk of Carbon Emissions and Its Price

Changes in temperatures are known to be predictable and having lasting effects on economic activity. This paper shows that it is the absolute amount of expected changes in temperatures to harm economic activity, way more than changes per se. This is shown using global CO2 emissions as forcing process, scaled by its forcing effectiveness, whose square prove impacting world GDP growth over long-horizons. This process also prove a significant risk factor in the global financial markets, with assets positively covarying with it carrying a negative premium, acting as an insurance. asuoihd uioshad ouashdo aho aodh aosihd oashdo oih aos idoai soih oiha oishodai hio oaihos hodahoih oa oas oa o.
